		Backing card	JLPS013	33mm x 18mm
		Closed Box	JLPS010	76mm x 25mm
		Polybag	JLPS014	44mm x 19mm
		Sticker	JLPS06	18mm x 41mm

Guidance

- 'On metal' tags are used for products containing metal elements as it interferes with the RFID tag. This includes foiling on the packaging or the item containing any metal elements itself including glitter, metallic thread or beauty products with certain ingredients.
- Please use the image guidance for guidance on how and where to attach your RFID tag to your packaging / product.
- PEAN labels are the type where the price is included on the label.
- **It is very important that you follow the RFID tag type suggested.**
Microwaveable products: *Using the correct, certified RFID tag for microwaveable products is essential for safety and functionality. RFID tags contain small metal components that, if not specifically designed as microwave-safe, can heat up, spark, or even ignite, posing a fire risk and damaging the product, appliance or user. Adherence to specific, product-category-based RFID guidelines and certifications is critical to maintain safety standards and regulatory compliance.*

Closed Box - Application Guidance

JLPS013

I64

Tag type - JLPS013 or I64
Images are for guidance of tag application only
Choice of tag type is for supplier to decide dependant on packaging format
